PROJECTS

Connect Campus — MERN Stack | Jan 2026 – Mar 2026 [🔗 Live](#)

- Built a pan-India student community platform where students from any college can join their college server and interact through real-time college channels, group chats, and direct messaging — serving 200+ active users.
- Designed modular REST APIs (MVC + middleware) for auth, invite-based onboarding, college discovery with debounced search & MongoDB indexing, and real-time online/last-seen presence.
- Implemented secure auth: JWT (HTTP-only cookies), Google OAuth, account lockout, password hashing, and CORS controls; added health-check endpoints for production reliability.

GoodWill Edu — Tutor Service Platform — MERN Stack | Sep 2025 – Dec 2025 [🔗 Live](#)

- Developed a production-ready multi-role tutoring platform (student/tutor/admin) for a local business, currently serving 500+ users, with tutor onboarding, job posting, and admin approval workflows.
- Integrated JWT auth, Google OAuth, OTP-based recovery, CSRF protection, Brevo email notifications, Redis + Bull job queueing; deployed on Vercel & Render with deep health checks.
